

## DOMESTIC GAS LEAK DETECTORS COMPLETE WITH MANUAL RESET N.O. VALVE

### DGD 148 - 248

#### APPLICATION

- These are gas leak detectors for methane and LPG complete with a normally open (N.O.) gas valve with manual reset at 230 V AC.

#### Features

- Interchangeable, precalibrated sensor.
- The detectors conform to the CEI EN 50194-1 standard and have the IMQ quality mark.

Code	Description	Data Sheet
DGD 148.15	Gas leak detectors for methane complete with N.O. valve GARO 815 (1/2")	–
DGD 148.20	Gas leak detectors for methane complete with N.O. valve GARO 820 (3/4")	–
DGD 148.25	Gas leak detectors for methane complete with N.O. valve GARO 825 (1")	–
DGD 248.15	Gas leak detectors for LPG complete with N.O. valve GARO 815 (1/2")	–
DGD 248.20	Gas leak detectors for LPG complete with N.O. valve GARO 820 (3/4")	–
DGD 248.25	Gas leak detectors for LPG complete with N.O. valve GARO 825 (1")	–
