

DOMESTIC GAS LEAK DETECTORS COMPLETE WITH MANUAL RESET N.O. VALVE

DGD 148 - 248

APPLICATION

• These are gas leak detectors for methane and LPG complete with a normally open (N.O.) gas valve with manual reset at 230 V AC.

Features

- Interchangeable, precalibrated sensor.
- The detectors conform to the CEI EN 50194-1 standard and have the IMQ quality mark.
