

WIRELESS BRIDGE CONCENTRATOR

EBR 868/C

APPLICATION

- Wireless concentrator for connecting multiple EBR 868 units (up to 16) which are in turn connected to field devices. This combination allows wireless extension of the communication bus between controllers (Y/Z series) and compatible expanders, via LoRa protocol (868 MHz).
- Compact size reduced to 1 DIN module.
- Reduced footprint to 1 DIN module.

Features

- 12 VDC power supply.
- ANTENNA INCLUDED.
