EHC 602 + ZBC 862 DEMO PANEL

QCR 441

APPLICATION

- A demonstration unit designed to give visitors a hands-on experience of the Coster control ecosystem in action. The panel incorporates the EHC602 Edge Controller, the range's multi-protocol gateway, connected to the BACnet ZBC 862 programmable controller. Ideal for testing configurations, learning how to use the tools and demonstrating to customers in real time how the devices in the range communicate with one another. Please refer to the attached wiring diagram for details of the connections
