

**OUTSIDE TEMPERATURE SENSORS FOR METERING DEGREE-DAYS
WITH ANTI-RADIATION THERMAL SCREEN**

SGE 001 - SGG 001

APPLICATION

Measurements of outside temperature for metering degree-days.
Not influenced by thermal conditions of wall on which installed.
Wall mounting with spacer.

Features

- Shock-proof plastic enclosure; Protection: IP 54; Cable entry gland: PG 11.

Code	Description	Application range	Sensing element	Data Sheet
SGE 001	Outside temperature sensor for measurement degree-days. Compatible with all compensating controllers	-40 ... 40 °C	NTC 1 kΩ	N 121
SGG 001	Outside temperature detector for measurement degree-days (XGG 618)	-50 ... 40 °C	Pt 1000	N 121
