

PRESSURE TRANSMITTER FOR LIQUIDS AND STEAM

SPW 2..

APPLICATION

Measures the pressure, by means of a ceramic sensor, in hot water or cold water or steam plants.

Features

- Pipe connection: male 1/2"; When the fluid temperature is higher than 80 °C a spiral spacer has to be used.
- Protection: IP 65; Output signal: 0 ... 10 V–.

Code	Description	Application range	Maximum pressure	Data Sheet
SPW 204	Pressure transmitter for liquids and steam	0...4 bar	8 bar	N 412
SPW 210	Pressure transmitter for liquids and steam	0...10 bar	20 bar	N 412
SPW 216	Pressure transmitter for liquids and steam	0...16 bar	32 bar	N 412
