

TEMPERATURE SENSOR FOR AIR DUCTS

STA ...

APPLICATION

Monitors the air temperature in ventilation ducts by means of a NTC sensor housed in a brass sheath. For easy mounting a connecting flange is provided.

Features

- Case in shockproof plastic material: 45 x 80 x 35 mm; Protection: IP 54; Cable duct: PG 11;
- Adjustable deep sensor sheath: \varnothing 9 x 20 ... 130 mm.

Code	Description	Application range	Sensing element	Data Sheet
STA 010	Temperature sensor for air ducts	0 ... 100 °C	NTC 10 k Ω	N 150
STA 001	Temperature sensor for air ducts	-40 ... 40 °C	NTC 1 k Ω	N 150
